TECHNICAL SKILLS

REACT.JS

Proficient in React.js for building dynamic, component-based user interfaces. Skilled in state management, hooks, routing, and integrating APIs for seamless, responsive web applications.

TAILWIND CSS

Experienced in Tailwind CSS with a strong grasp of utility-first design. Capable of creating responsive, modern UIs efficiently while maintaining clean and scalable code structures.

JAVA

Skilled in Java, including Arrays, Strings (concatenation, substring), OOP concepts (Encapsulation, Abstraction, Inheritance, Polymorphism), and Exception Handling (Try-Catch, Throw, Throws).

HTML5

Proficient in HTML5 for crafting accessible, interactive web pages with semantic markup, responsive design, and well-structured content.

CSS3

Skilled in CSS for creating unique, responsive design layouts using media queries, grid, and flexbox, with clean, efficient code for fast performance.

JAVASCRIPT

Strong in JavaScript functions, arrays, and strings. Skilled in DOM manipulation for dynamic, interactive web pages.

MYSQL

Strong in SQL, including DDL (Create, Alter, Drop, Truncate), DML (Insert, Update, Delete), DQL (Select, Where, Limit, Order By)

GIT

Version control with Git & GitHub. Managing branches, merge conflicts, and commits.

PROJECTS

Weather App

A weather forecasting app that fetches real-time weather information using OpenWeatherMap API. Displays temperature, humidity, and weather conditions for any city entered by the user.

QR Code Generator

Generates dynamic QR codes based on the input text or link provided by the user. Built with basic web technologies and uses a public QR code API.

Tic Tac Toe Game

A simple and responsive 2-player game of Tic Tac Toe. Implements game logic with winning condition checks and restart option.

Memory Game

A card-flipping memory game with timer, sound effects, and scoring system. Difficulty levels and high score are saved using localStorage.
